Subject: Revised Letter to CalGEM from Esperanza Community Housing "People not Pozos" Campaign
Attachments: PNP letter CalGEM rec discl violations #2 6-19-20.doc

Hi Chris,

I hope all is well for you and all the staff over at CalGEM. We thank your staff for providing updates on matters related to AllenCo. Yesterday we received notification from LA County Public Health concerning new information reported by your staff related to their June 18, 2020 field inspection at AllenCo. Because this information adds to documentation contained in our June 2, 2020 communication to CalGEM we felt it was important that we update that letter (attached) to include this new information on leaks discovered in June, 2020. This new information is in green highlights in the "Additions to "New list of Violations" section.

In addition, we added another section, "Of other concern," in blue highlights. We are requesting more details related to information provided by Cal GEM to date. Specifically, can you address the following questions:

- What is the significance of removal of the hydraulic pumps and electric motors from the six wells?
- Do AllenCo operations and activities related to the rig on site, and the removal of the pumps and motors affect the health and safety, and/or quality of life of the residents in the community? I refer specifically to any resulting unhealthy air pollution, odors, noise, lights, or other disturbances that may occur?
- Is CalGEM monitoring the safe removal of these pumps and motors?

Chris, we appreciate a timely response to our questions.

Warm regards,

Hugo Garcia
